

Jorge Boria

Jorge holds a Masters of Engineering in Computer Science from Cornell University. He is a Certified High Maturity SCAMPI A Lead Appraiser; for which he is also an authorised Observer; and an authorised trainer of the Introduction to the CMMI by the Software Engineering Institute (SEI) of Carnegie-Mellon University. He works at the SEI as a Visiting Scientist, in the role of Qualified Observer of Candidate Lead Appraisers in the Quality Group. Jorge has performed a range of roles from programmer to technical program manager in diverse domains including embedded software, operating systems, compiler construction, MIS, and general IT applications. Jorge is a popular presenter having performed over 200 times at conferences, seminars, and as invited speaker. He has authored two published books on Software Development. He is fluent in English, Spanish, and Portuguese.

Jorge has developed a very successful class on Developing High Maturity Assets, and a two day Scrum kickoff based on material from the Scrum Alliance. During his tenure at Teraquest (1999-2003), Jorge was authorised to teach tens of classes developed internally, some of which he helped develop. The subjects spanned Acquisition, Quality Assurance, Requirements, Testing, Project Management, Configuration Management and more. His teaching credentials were impeccable, having received a written comment from a customer saying he was "The epitome of the educator;" a comment Jorge still treasures.
